Hi, my name is Etienne Brodu, I'm a **developer** & **designer**.

I grow **ideas**, and I **love** that. To plant germs in my brain and feed them with my **imagination**, cut sterile branches and

cherish good ones, make them blossom. I could **never stop thinking**, even if I tried.

I'm **adaptable**, **accurate**, **inventive** & **proactive**. And I'd love to **contribute** building the world we will live in.
